## Tour and Tasting at Stahlbush Island Farm

Thursday, June 11th, 3 pm

Join us for this special opportunity to visit a locally grown business that is an internationally recognized leader in sustainable agriculture. Stahlbush farms, celebrating their 30th anniversary this year, is owned and operated by Bill and Karla Chambers and their family, and is an environmentally-friendly farm and food processor committed to sustainable agriculture. Their philosophy is that farming practices should leave the soil, air, water, plant life, animals and people healthier. Stahlbush farms has received numerous awards and has been recognized for its yearly donation of over 1 million servings of healthy food to local food banks.

During our visit we will have the opportunity to learn about some of the history of the farm and how their products from the Willamette Valley are marketed around the world. We will have a tour of the Biogas facility and learn about how they are using processing waste and crop silage to produce electricity. We will also get to sample a variety of their processed products.

Space on the tour is limited, so participation requires signing up in advance.

To sign up for the tour, please go to this link:
